

[Scaricare VRED Server 2011 Generatore Di Chiavi 32 Bits IT](#)

Install Now (Internet Explorer Only)

Click "Install Now" to begin installing the Security Agent to your computer. The installation process takes only a few minutes to complete. However, it usually takes longer when you are installing the very first Security Agent on your network. If you are using Internet Explorer 9.0 or above, you may be prompted to install the Trend Micro WinNTChk ActiveX control. Click the Internet Explorer Information bar at the top of the browser screen, and then click Install to start installing the control.

Install Now

Warning

When you click "Install Now", you may receive a security warning. In order to resolve this permanently, in Internet Explorer, go to **Tools > Internet Options > Advanced**. Then, under **Settings > Security**, uncheck "Do not save encrypted pages to disk".

Download Packages (For other type of browsers, other than IE.)

Right click on the appropriate version below and click "Save As" to save the installation file to your computer.

[Security Agent installation package 64-bit](#)

Warning

After clicking the links below, you may receive a security warning about an unknown publisher. You can safely click "Run".

Agent Installation Requirements

Installing the Security Agent requires the target computer to be running Windows 7/8.1/10 or Windows Server 2008/2011/2012/2016. This Web-based agent deployment method requires Microsoft Internet Explorer 9.0 or above. If you need assistance, contact your Security Server administrator.
